STUDENTS COLLECT MILKWEED FLOSS

Covert school students are now making a drive which opened on Monday to collect milkweed floss. The five 4-H clubs, under the direction of Floyd Bronson, started on their drive Monday. Each club is working in conjunction with the state-wide collection of the floss needed by the government to make life belts for the servicemen.

At the close of the drive the winning team will be feted at a banquet given to them by the four losing teams. There are fifty members belonging to the five clubs which have become active since school was out in May: a junior and a senior Potato club, Forest Rangers, Canning club, and a Garden club.

On Thursday evening, September 21, the five 4-H clubs of the Covert school will hold an achievement night. The fifty club members will present their articles that they have grown, made or canned this past summer.

A program is being planned by the members and a speaker is being sought for the occasion. Floyd Bronson is the advisor of all these groups.

On Saturday September 23, the boys and girls will take their same exhibits to Lawrence where a county achievement day is to be held. Their vegetables and canned fruits and vegetables will be entered in contest with those from all over the county.

ST. JOSEPH COUNTY FAIR NEXT WEEK

St. Joseph County Fair association has completed all arrangements for its prospectively great 1944 fair from September 19 through September 23.

Known, and rightly so, as the premier fair of Michigan, St. Joseph county's 1944 "Victory Fair" is expected to be on or above the quality that has stamped it so with the citizens of southwestern Michigan and northern Indiana over a period of years.

An amount of \$15,000 in prizes for livestock, grains, produce and other exhibits which include Michigan state fair classes has been allotted, and the fair association has materially increased purse money for racing and horse pulling this year to insure the best class of performers in both types of contest. Plans have been made to continue the horse show classes, started a number of years ago by this fair and adopted enthusiastically by other fairs around the circuit.

The association has purchased the great Barnes and Carruthers show, "Let Freedom Ring" and the beautiful extravaganza with its great talent will be presented every night from Tuesday through Saturday.

called "human nature" will help. The late Jay House, a politically wise writer, used to say: "The average American will not walk across the street to vote for somebody, but he will stand two hours in the rain to vote against somebody." That characteristic will be an influence in this election.

On the other hand there are many who think that Roosevelt is the only man to be considered for the presidency. Only time—and the tide—will tell.

Ways to add extra eggs for flavor and richness are suggested in a new folder, AWI-89, just issued by the U. S. Department of Agriculture, Washington, D. C.

Where were you on the night of September 7, 1929?

Could you remember, if you were squirming on the witness stand? Probably not. 15 years is a long time.

Maybe, being September first, you were writing checks to pay the monthly bills. Do you remember how much you paid for electricity?

That's a tough one, too, isn't it? Actually, if yours is an average American household, your electric bill may have been a little less then than it is now.

But today you're getting twice as much electricity for your money!

How come? Well, while the price of electricity was coming down, your use of electricity was going up. You have a lot more electric appliances in 1944 than you had in 1929. But you enjoy all these added comforts at little, if any, added cost!

Even if you're hazy about everything else that's happened in the last 15 years, remember this wartime bargain. It's due to hard work by all our people—and sound business management.
